Drug Monitoring Initiative

# Summary

The spread of COVID-19 has negatively impacted statewide infrastructure and reduced the availability of a wide number of Health and Prevention Sharing Network (HPSN) resources, which are essential for DMI partners and the individuals they serve.

In response to the COVID-19 (coronavirus) pandemic, NJ's Drug Monitoring Initiative (DMI) has created a "New Jersey Resource Guide" to provide DMI partners and the public with links to relevant resources for a variety of topics.

### GENERAL INFORMATION

At this time, testing is prioritized for individuals who are sick with symptoms of fever, cough and shortness of breath where they need hospitalization, those who are close contacts of confirmed COVID-19 cases, and individuals who traveled to/from highly affected areas.

**If you do not have symptoms, testing is not recommended.** Complete this [self-assessment](#) to learn what to do.

### 3 TYPES OF TESTING SITES

**Community-based testing sites** - These sites are open to all New Jerseyans who are experiencing symptoms of respiratory illness

**County testing sites** - These sites may be restricted to residents or first responders of a specific county. Some also require an appointment and/or prescription from a healthcare provider.

**Private testing sites** - To access testing at these sites, you must contact your doctor or healthcare provider.

**NOTE:** Each testing site operates on a schedule and has specific requirements. Please check with that site before visiting as you may be turned away

Hunterdon Medical Center 2100 Westcott Drive Flemington, NJ 08822	<b>Hunterdon County Residents Only</b>	Hunterdon Healthcare opened a respiratory illness tent located behind the Hunterdon Medical Center in Raritan Township on Friday to expand its capacity to evaluate and test a growing number of patients affected by the coronavirus pandemic. The tent will be open daily from 10 a.m. to 6 p.m., and has been established to accomplish three goals: expand the existing evaluation and testing capacity for individuals screened for COVID-19; offer individuals experiencing coronavirus symptoms a direct and convenient connection to screening and treatment. Patients do not need to receive a written order to visit the respiratory illness tent, but are encouraged to contact their primary care physicians and receive direction from them regarding further testing and evaluation prior to visiting the tent. Individuals who choose to visit the respiratory illness tent should drive directly to the Emergency Department entrance of the Hunterdon Medical Center and remain in their car as a clinician approaches them to evaluate their medical needs. Visitors with respiratory illness or symptoms of the coronavirus will be instructed to follow signs to the rear of the hospital where the tent is located, where again they will be asked to remain in their car until being approached by a clinician who will show the driver where to park and how they will be brought into the tent for screening.	10 am to 6pm
